

Athletic Training Room/Sports Medicine Staff

West Genesee contracts out for our Sports Medicine and Athletic Training needs. The Athletic Training room is located at West Genesee High School near the pool entrance. The Athletic Training room is open on school days, Monday through Friday 2:00 P.M. – the end of practices or games. Usually the athletic trainer will be available in the room from 2:00 P.M. – 3:30 P.M. for consultations or assistance. After 3:30 P.M. the athletic trainer will circulate throughout the High School practice areas and is available for any immediate concerns or emergencies. Any changes to the schedule will be posted on the athletic training room door. Hours may vary on non-school days, during holidays and during pre-season practices.

Student athletes currently participating in a sport will be seen on a first come first served basis. Some exceptions will apply, such as athletes who need to leave to ride a bus for competition or medical emergencies. Athletes who are out-of-season may need to wait for services until after in-season athletes are prepared for practice or competition.
