

## New Online Registration for Sports Sign Up

The West Genesee School District Athletics Department uses **FamilyID**, an online program in which families can register their children to participate in West Genesee athletic programs.

The **FamilyID program** will allow the district to be more administratively efficient and environmentally friendly. It will replace the former "pink form" system used by the district, eliminating the need for district nurses to complete, file and store hundreds of documents.

Students must register through **FamilyID's West Genesee registration pages** prior to participating in any West Genesee athletic program. Students not registered through **FamilyID** will not be allowed to participate.

Once registered through **FamilyID**, the system keeps track of each student's information in a **FamilyID** profile. Each student will need an up-to-date sports physical that parents/guardians must upload to the student's profile.

Registration and personal information is automatically encrypted for security purposes.

For assistance with registration or questions about the new program, contact **FamilyID** at 888-800-5583 x1 or support@familyid.com. **FamilyID** also offers online chat during business hours, and support is available daily.

### Important Winter Sports Information:
