

**COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE**  
**AT THE CONCLUSION OF THE AUDIT**

Board of Education  
West Genesee Central School District  
Camillus, New York

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Genesee Central School District (the School District) for the year ended June 30, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 30, 2016. Professional standards also require that we communicate to you the following information related to our audit.

**Significant Audit Findings**

***Qualitative Aspects of Accounting Practices***

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the School District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2016. We noted no transactions entered into by the School District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the District-wide financial statements were: other postemployment benefits liability, compensated absences, accumulated depreciation, and proportionate share of net pension (assets) liabilities.

Management's estimates of other postemployment benefits liability, compensated absences, accumulated depreciation, and proportionate share of net pension (assets) liabilities are based on various assumptions. The compensated absences estimates included estimates for retirement incentives liabilities and accrued sick and vacation time. Retirement incentive estimates are based on contract, age of employee and number of years worked. Sick and vacation time accrual is based on hours accrued and pay rates. Accumulated depreciation estimates are based on the historical cost of assets and their estimated useful lives. Other postemployment benefits liability estimates are based on actuarial calculations and accounting and reporting for pensions is based on proportionate share of pension plan (assets) or liabilities. We evaluated the key factors and assumptions used to develop the other postemployment benefits liability, pension, compensated absences, and accumulated depreciation estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures were:

The disclosures of capital assets, short-term debt, long-term debt, pension obligations, other postemployment benefit liability and the fund balance, the details of which are presented in Notes 6, 7, 8, 10, 11, 13 and 14 of the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

#### ***Difficulties Encountered in Performing the Audit***

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### ***Corrected and Uncorrected Misstatements***

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements, other than those that are trivial, detected as a result of audit procedures.

#### ***Disagreements with Management***

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### ***Management Representations***

We have requested certain representations from management that are included in the management representation letter dated October 5, 2016.

#### ***Management Consultations with Other Independent Accountants***

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the School District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

***Other Audit Findings or Issues***

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

**Other Matters**

We applied certain limited procedures to Management's Discussion and Analysis, budgetary comparison information, the Schedule of Funding Progress, the Schedules of School District Contributions - NYSLRS and NYSTRS Pension Plans, and the Schedules of the School District's Proportionate Share of the Net Pension (Asset) Liability which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Schedules of Change from Adopted Budget to Final Budget and the Real Property Tax Limit, Schedule of Project Expenditures - Capital Projects Fund, Schedule of Net Investment in Capital Assets, and the Schedule of Expenditures of Federal Awards, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

**Restriction on Use**

This information is intended solely for the use of the Audit Committee, the Board of Education, and management of West Genesee Central School District, and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully Submitted,
