Prevention and Reporting of Suspected Child Abuse and Maltreatment

Purpose

Pursuant to Education Law Section 3209-a and Title VI of Article Six of the Social Services Law, the Board of Education has developed a policy and guidelines to inform its employees of (i) their obligation to report suspected child abuse and maltreatment, (ii) the procedures by which they may do so, and (iii) training programs regarding these obligations and procedures.

Policy

In order to implement a comprehensive program of prevention of child abuse and maltreatment, all members of the District's staff, including all instructional and non-instructional employees, shall be informed about (a) their duty to report suspected child abuse and maltreatment pursuant to applicable law, (b) the required reporting procedures, penalties for failure to report, and immunity from liability, (c) the responsibilities and organization of the Child Protective Service, (d) basic procedures of Family Court, and (e) training regarding these obligations and procedures as well as the diagnosis of child abuse and maltreatment. In addition, although applicable law does not impose a reporting obligation in connection with suspected incidents of child abuse involving District personnel, all District employees shall also be informed of the procedures to be followed in connection with any such incidents.

Designation of Authority

The Superintendent, or a designee, shall be responsible for enforcing this policy by communicating it to all relevant personnel and by providing necessary guidelines to the school personnel required to report cases of suspected child abuse and maltreatment.

Reports

All reports pertaining to the implementation of this policy and related guidelines shall be forwarded to the Superintendent or the Superintendent's designee.
Review

This policy shall be reviewed and amended as required by any changes in the law, promulgation of requirements by the Department of Social Services, or changes necessitated by the needs of the children residing in the District.

Prevention and Reporting of Suspected Child Abuse and Maltreatment

Child Abuse or Maltreatment by Person Legally Responsible for the Child's Care

A. New York Law; Child Protective Service

1. New York Social Services Law

The New York Social Services Law requires that school officials and staff report suspected child abuse when they have reasonable cause to suspect that a child coming before them in their professional or official capacity is an abused or maltreated child. (The terms "abused child" and "maltreated child" are defined by law. Those definitions are included in Section I.C. of these Policy Regulations.)

2. New York Family Court

New York Family Court has jurisdiction over proceedings involving the emergency removal and temporary removal of children from their place of residence. The applicable standard is whether the removal is necessary to avoid imminent risk to the child's life or health. Family Court also has jurisdiction to order the return of children temporarily removed, issue protective orders, order visitation, and to make a determination of neglect and abuse which may result in the termination of parental rights.

3. Child Protective Service

The Child Protective Service is the sole public organizational entity responsible for receiving and investigating reports of suspected child abuse. It also provides and coordinates the service necessary to safeguard and insure the abused or maltreated child's well-being and development and to preserve and stabilize family life to the extent possible.

B. Policy Procedures

1. Persons Required to Report

All school officials, including teachers, administrators, and pupil services staff (including non-instructional staff), as well as all physicians, psychologists, registered nurses, and mental health professionals, are required to report cases of alleged child abuse, maltreatment, or neglect whenever they have reasonable cause to suspect that a child is an abused or maltreated child based upon information obtained in their professional

capacity. Certainty or proof is not required for the reporting obligation to be triggered.

2. Reporting Procedures

(a) Instructional and Non-Instructional Staff

All building staff may immediately notify the Building Principal whenever there is reasonable cause to suspect child abuse or maltreatment has occurred. Other staff shall immediately notify their Department Director whenever there is reasonable cause to suspect child abuse or maltreatment has occurred, and the Department Director shall then notify the Building Principal. The Building Principal shall then make the oral and written reports required by law, thereby satisfying the reporting obligation for all personnel involved. However, if the Building Principal fails to make the required reports, all staff members with reasonable cause to suspect child abuse or maltreatment remain responsible for ensuring that the oral and written reports required by law are made.

(b) Building Principals

The Building Principal or staff member shall promptly report each suspected case of child abuse or maltreatment to the Child Protective Service and shall arrange for documentation of any injuries by the use of photographs. The Building Principal shall promptly notify the Superintendent in Writing (copy of Form LDSS-2221A) whenever any report is made to the Child Protective Service.

(c) Reports to the NYS Central Register

All cases of suspected child abuse or maltreatment must be reported orally to the New York State Central Register of Child Abuse and Maltreatment. The Central Register is maintained by the New York State Department of Social Services and staff is available to receive reports 24 hours a day, seven days a week. Reports may be made by calling either of the following numbers:

NYS Toll Free: 1-800-635-1522 (Mandated Reporters) or 1-800-342-3720 (Public Callers)
OR
In Onondaga County: (315) 422-9701 or (315) 435-2884
The following information, if known, should be given at the time an oral report is made:

(1) Name and address of the child and the child's parents or other persons responsible for the child's care;

(2) The child's age, sex, and race;

(3) The nature and extent of the child's injuries, abuse, or maltreatment (including any evidence of prior injuries, abuse, or maltreatment to the child or the child's siblings);

(4) The name of the person or persons responsible for causing the injury, abuse, or maltreatment;

(5) Family composition;

(6) Source of the report;

(7) Person making the report and where that person can be reached;

(8) Any action taken by the person making the report; and

(9) Any additional information which may be helpful.

Within 48 hours of making an oral report, a written report (Form LDSS-2221A) must be filed with the appropriate local County Department of Social Services Child Protective Services Unit. Any photographs which are taken must be filed with the written report.

3. Confidentiality of Reports

All reports are confidential and strict confidentiality should be maintained by all District personnel. Reports may be made available only to those individuals or groups specified by law, including agencies which license or certify individuals or facilities to provide child care, agencies employing individuals with child caring responsibilities, and adoption agencies.

4. Coordination

Child Protective Services of the Onondaga County Department of Social Services will provide all investigative enforcement and related services. The Department of Social Services is required to provide continuing publicity and educational programs for persons required by law to report suspected child abuse or maltreatment.

4/7/08
5. **Training**

The District will provide a written fact sheet explaining the reporting requirements to all current and new employees. The District will also provide ongoing training programs regarding obligations and procedures in connection with the reporting requirements mandated by the Education Law and Social Services Law.

6. **Consequences of Failure to Report**

Any person required to report who willfully fails to do so is guilty of a Class A misdemeanor and may also be sued for any damages caused by the failure to report.

7. **Immunity**

Persons making a report may not be sued or charged with a crime in connection with the report provided the report is made in good faith based on reasonable cause to suspect that child abuse or maltreatment has occurred and provided the person making the report is acting in discharge of official duties and within the scope of employment. This protection does not apply, however, if, under the circumstances, the making of the report constitutes willful misconduct or gross negligence.

C. **Definitions**

1. **Abused Child.** An "abused child" is a child under the age of 18 years whose parent or other person legally responsible for the child's care: (i) inflicts or allows to be inflicted upon the child physical injury by other than accidental means which causes or creates a substantial risk of death, serious or protracted disfigurement, protracted impairment of physical or emotional health, or protracted loss or impairment of the function of any bodily organ, or (ii) creates or allows to be created a substantial risk of physical injury to the child by other than accidental means which is likely to cause death, serious or protracted disfigurement, protracted impairment of physical or emotional health, or loss or impairment of the function of any bodily organ, or (iii) commits or allows to be committed a sex offense against the child, permits or encourages the child to engage in prostitution or incest, or allows the child to engage in sexual performance.

2. **Maltreated or Neglected Child.** A "maltreated" or "neglected" child is a child under the age of 18 years: (i) upon whom serious physical injury has been inflicted, or (ii) whose physical, mental or emotional condition has been
impaired or is in imminent danger of becoming impaired as a result of the failure of a parent or other person legally responsible for the child's care to exercise a minimum degree of care in (a) supplying the child with adequate food, clothing, shelter, education in accordance with the compulsory education laws, or medical, dental, optometrical or surgical care, though financially able to do so or offered financial or other reasonable means to do so, or (b) providing the child with proper supervision or guardianship, by unreasonably inflicting or allowing to be inflicted harm, or a substantial risk thereof, including the infliction of excessive corporal punishment, or by misusing a drug or drugs, including alcoholic beverages, or by any other act of a similarly serious nature, or (iii) who has been abandoned by the parent(s) or other person legally responsible for the child's care.

3. Person Legally Responsible for the Child's Care.

"Person legally responsible" includes the child's parents, custodian guardian, or any other person responsible for the child's care at the relevant time. "Custodian" may include any person continually or at regular intervals found in the same household as the child when the conduct of such person causes or contributes to the abuse or neglect of the child.

**Suspected Child Abuse or Maltreatment by District Personnel**

A. Persons Required to Report

The reporting obligations set forth above apply only in instances of child abuse and maltreatment by parents or other persons legally responsible for the care of the child. Although such reporting obligations therefore do not apply in situations of suspected child abuse or maltreatment by District personnel, every District employee who suspects such an incident should immediately report all information to the Building Principal or Department Director consistent with the procedures set forth in Section I.B.2. of these Policy Guidelines. The Building Principal, with the assistance of the Superintendent, or the Superintendent's designee, shall be responsible for promptly and thoroughly investigating and documenting any such suspected incident. The Superintendent may prohibit unsupervised student contact by any District employee who is the subject of investigation of a suspected incident.

B. Notification of Parents

The Building Principal shall notify the parents or guardians of any student who is a suspected victim of child abuse or maltreatment by District personnel. No District personnel or board member, with the exception of the Superintendent, or the Superintendent's designee, shall make any statement or release any information to
the public, media, staff, and/or student body which identifies or could be used to identify a suspected victim or perpetrator of child abuse or maltreatment while an investigation is pending. The Superintendent and/or designee shall seek legal counsel concerning the nature of statements which are permissible in the particular case, prior to making any public statement on the case.

C. Police Intervention

If the totality of the facts and circumstances surrounding a suspected incident of child abuse or maltreatment by District personnel warrant the intervention of law enforcement authorities, the Superintendent and/or designee shall contact the appropriate authorities. The District shall cooperate to the extent possible with the investigation and prosecution of any such case.

Review

These policy guidelines shall be reviewed and amended as required by any changes in the law, promulgation of requirements by the Department of Social Services, or changes necessitated by the needs of the children residing in the District.
