MANAGEMENT COMMENT LETTER

Board of Education
West Genesee Central School District
Camillus, New York

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of West Genesee Central School District (the School District) as of and for the year ended June 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the School District’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of School District’s internal control. Accordingly, we do not express an opinion on the effectiveness of School District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This letter does not affect our report dated September 28, 2018 on the financial statements of the West Genesee Central School District.
Impact of Future Standards of the Governmental Accounting Standards Board (GASB)
The School District is in the process of assessing the future effects of each of the following:

- GASB has issued Statement No. 84, “Fiduciary Activities,” effective for the year ending June 30, 2020. This statement improves guidance regarding identification of fiduciary activities for accounting and reporting purposes.

- GASB has issued Statement No. 87, “Leases,” effective for the year ending June 30, 2021.

- GASB has issued Statement No. 88, “Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements,” effective for the year ending June 30, 2020. This statement improves the information disclosed in the notes to government financial statements related to debt, including direct borrowings and direct placements.

The School District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

This communication is intended solely for the information and use of management, the Audit Committee, the Board of Education, and others within the School District, and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully Submitted,
